

"Light The Sky"

Grace VanderWaal

For educational purposes only, any sale or resale strictly prohibited

[Pre-Verse]

C F
Stars, they got nothing on us
C G
I don't think you understand

[Verse]

C F
Let's go out and do something we'd never do
C G
Cause I feel like I can do anything when
C
My head is spinning and my feet off the ground
F
When I can't stop dancing like no one's around
C G
And yeah, I think we were born to shine

[Chorus]

F C G
Cause the stars are dull when they're compared to you and I
F C G
And if people don't like it then they can close their eyes
F C G
Cause' we're not the same and we don't have to try
F * G * C
We're brighter than fireflies, we're gonna light the sky
F
Ooh, oh, oh
C G
Ooh, oh, oh oh
F
Ooh, oh, oh
C G
Ooh, oh, oh oh

[Bridge]

Light the sky
C F
You and me, me and you
C G
We will shine through
C F
You and me, me and you
C G
We will shine

[Verse]

C
Cause my head is spinning And my feet off the ground
F
And I can't stop dancing N.C Like no one's around
C G (3 down strums on G)
And yeah I think we were born to shine

[Chorus]

* Jamming note * use Grace's dynamics, strum ending chords and let them ring, strum louder in certain parts, change to mellow strums in certain parts. That is what gives this song its feel, it is always the same and simple, yet always different. Light the Sky my tenthumbers!
