

Abysma

Noodles and Dimples get a new customer called Abysma, a high level character. They go to see what she wants

Shot of Noodles' island, the sun coming up. Reflections in the water

Noodles: "Abysma: Ruler of wet ass island", that's a weird name. Why do we keep getting weirdos?

Dimples: Yeah hahah, that's the only one we got today

Dimples shuffles to put away other message bottles and a poster of Abysma

Cut to Noodles and Dimples outside Abysma's castle

Noodles: What the hell

Noodles and Dimples walk through the entrance towards the camer. Noodles has a map and a bio of Abysma open

Noodles: So she's supposed to be in here...

Abysma sits on a throne on top of a huge staircase

Abysma: MWAHAHAHA!! I Am the sex goddess Abysma!! The ruler of this island!!

Noodles: It says here that you're just a normal person...

Abysma stutters a little

The camera pans over to Dimples, revealing his excited face

Abysma: NOW, take off your pants, peasant! And show me your puny, minuscule, little insignificant appendage!!

Dimples blushes and starts to take off his pants
