

The Ideal Form Machine

LIVE ●

Hello there.
I'm Dr. Alexandra
Lee Corkeey.

My specialty,
besides engineering, is
decoding and modifying human
DNA, where our research is
still in its beginnings.

I have developed this
Machine behind me and will now
test it on myself in the name
of science.

This video serves
as my proof to the scientific
community. But what exactly
does this machine do?

Simply put, I have
found a way to optimize the DNA
of a living, adult human being.

Today, not only
knowledge counts, but also an
attractive appearance, age and,
of course, physique.

Don't get me wrong.
I know that I'm smart and attractive.
But what is the ideal form?

This machine is connected
to the World Wide Web and uses
AI to calculate the optimal body
and adapt my DNA structure.

To prevent the DNA from being contaminated by foreign particles, I have to deposit clothing and aids such as my glasses outside the tube.

LIVE ●

If my calculations are correct, all blemishes, as well as damage to my body, will also be removed. Since the birth of my son, he is currently studying, I have not only stretch marks, but also other tissue damages.

A paradox, the butterfly effect, ensures that changes in reality have an immediate effect... Now that Dr. Lee Corky is young again, but not very bright anymore...

Thank you so much for your time. I've heard...

... the reality for her son is also changing... In the new reality He was never born as He and his former mother is now her Sister - her Twin Sister to be precise.

... that you're a casting director and that you...

The Ideal Form Machine

... are looking for some new faces in your film crew.

My Sister and I are...

... like super busty and willing to do like totally everything...

The Ideal Form Machine

U see, we're not only like totally hotter then hell and always lookin' for some hawt cawcks...

... we are like supa smarty- smart you know? I mean... look at the size my melons have...

giggle
... what I lack in my brain, like com-pen... uhh...my huuuge girls make up for!

giggle

The Ideal Form Machine

So you want to tell me that you and your sister are curvy bimbo's?

Like totally! We are like sooo much Bimbo, there like isn't... ummm...

... ups.. what was I um... sayin'? I'm like such an Airhead sometimes.

I see... and your sister is smarter as you?

What? Nooo way. I got all the brain an' the beauty, the cawcks... 'cause I have huge tits!

And so a new life takes place for both. It could be worse then to be a Bimbo Actress in a movie.

This party
is like sooo amazing
Abby...

giggle

Ur body is
like so solid... Me
luv ur muscles like
sooo much...

giggle

That is the
right spot Babsi.
