

MICHAËL GHELFI STUDIOS

WORLD REFERENCE FOR TABLETOP RPG AUDIO

Dear adventurer,

To make the use of our work easier for you, we developed a directory structure that is meant to automatically export the Patreon files in the right folders.

Each time you download a .zip from our Patreon, simply export the content of that .zip in the same folder of your choice (we call it “base folder” in this .pdf file).

It will create a folder called “MGS Audio”. If there’s another folder with the same name in the base folder, they will merge.

If a prompt asks you if you want to overwrite any file, say yes. It should only overwrite this file or the general notice.

Your directory structure will grow over time. Feel free to manually add ambiences from our Bandcamp as well.

Any additional information about that topic will be addressed [in this post](#).

Thank you for your attention. Happy adventuring!
