

Awesome Turnarounds In A Blues

For Ukulele
Tenthumbspro.com

Turnaround #1 - Triplet Delta Style

<https://www.youtube.com/watch?v=cNVqBmqLa8w>

```
1 po la 2 po la 3 po la 4 po la 1 po la 2 & 3 & 4 &
A|0-----3-----3-----1-----|-----0--3-4-5-----|
E|0-----2-----2-----1-----|-----2-3-4-----|
C|1-----2/4--4--3---3--2---2--|0h1-----2-3-4-----|
g|0-----2-----2-----1-----|-----2-3-4-----|
```

* Note the triplet count in the first bar and the first beat of the second bar, after that it goes into straight time again. Very common among Delta style turnarounds. Sometimes they even mix them from beat to beat. The slide on the second beat in bar 1 should try to happen quickly to maintain the triplet feel.

Turnaround #2 - Delta Drone String Turnaround

<https://www.youtube.com/watch?v=N2kpzaq1MLo>

```
1 & 2 po la 3 po la 4 po la 1 po la 2 & 3 & 4 &
A|0-----0-----0-----0--|-----0--3-4-5-----|
E|0----3-----2-----1-----|-----2-3-4-----|
C|1---4-----3-----2-----|0h1-----2-3-4-----|
g|0-----2-----2-----1-----|-----2-3-4-----|
```

* same timing as previous. That triplet timing is what is really going to drive the turnaround forward.
